Dear sir,

I am writing to you to express my support for the petition to ban the forced molting of layer hens.

These hens endure enough torture as battery hens without being exposed to yet more disgusting cruelty.

To be deprived of food & water, to be kept in darkness for weeks on end just to shock their systems further is absolutely despicable.  
We don't care about the egg

producers cash flow - we just want this to stop immediately. It has no place in modern society & now that people are aware of this demented cruelty they will not buy eggs or buy 'free range'.

Apart from the facts I will guarantee that in years to come this cruelty will result in some form of disease in humans who have eaten these birds in the form of soup (they cannot be consumed as anything else because they are so 'battered' & 'abused'). These things that stupid greedy humans do always come back to haunt us.

yours faithfully
